FRANCOIS Cyril

Delivering value by shaping architectures that transform business needs into innovation!

DATA & AI TECH DIRECTOR

- 12 years of experience
- Orchestrated teams up to 80 people
- Designing 1500K€ data & IT projects

As a Technical Director / CTO, **I bridge business needs with technical execution**, creating and translating strategic objectives into scalable **Data** and **AI** solutions.
I bring **end-to-end expertise** across the data value chain, from engineering and science to analytics, and ensure teams are aligned with clear, **value-driven roadmaps**.
