

FRANCOIS Cyril

Delivering value by shaping architectures that transform business assets into acceleration!

DATA & AI TECH DIRECTOR

- 13 years of experience
- Orchestrated teams up to 80 people
- Designing 1500K€ data & IT projects

As **Technical Director / CTO**, I bridge **business strategy** with **hands-on** execution to build scalable **Data and AI solutions**. I **Harness** AI to accelerate production, transforming client operations by turning past work into reusable assets that multiply delivery speed and production value. Proving this expertise in practice, I **founded** a near-**autonomous** [AI platform] from **architecture to automated operations.**

Toulouse, FRANCE

Native | Fluent

EDUCATION

Toulouse III Univ., France | 2013 – 2015
Research Master - Artificial Intelligence, Collective Intelligence, Interactions

HOBBIES

Writing - A horror thriller already written and another soon to be finished!
A published children book!
Parachute with 29 jumps under my belt
WWF, Swimming, Climbing, Board games, Backpacking

SKILLS SUMMARY

Writing architecture documents (ARD, CPD, DRP…), business, technical workshops. Support until delivery

Strategic Planning, Organizing, Agile, Budgeting, Business Development

Machine Learning, Generative AI, Self-organized system, Complexity, Data Lake, Warehouse, Optimization, Signal analysis, (Un)supervised, NLP, LLM

PROFESSIONAL EXPERIENCE

DATA & AI LEAD ENGINEER
Kiiro, France | September 2026 – Present
- Led Data & AI practice growth, offer design, and RFP wins
- Architected and delivered end-to-end GenAI/data pipelines
- Provied hands-on tech lead and mentoring
- Advised clients on AI strategy, tech stack selection, roadmaps
- Conceptualize AI Harness to increase value into quicker prod

FOUNDER & CTO
ImmA, France | August 2026 – Present
- Architect and built full-stack platform (Goland, React) solo
- Engineered core AI engine for automated scenario generation
- Managed full DevOps lifecycle, cloud infra, CI/CD pipelines
- Integrated critical APIs including Stripes and social automation
- Defined overall business strategy, pricing models and partners
- Built an AI Harness to accelerate the production

ACTING CTO // ACTING HEAD OF DATA & AI
GoMind, France | August 2025 – Present
- Defined company-wide Tech & AI strategy to drive business
- Directed pre-sales, technical positioning, and solution design
- Industrialized high-impact GenAI solutions and reusable assets
- Coached cross-functional teams to boost technical autonomy
- Validated technical architectures for scalability and AI feasibility

HEAD OF / DATA & AI PRACTICE LEADER
Klanik, France | September 2024 – June 2025
- Led strategic & tech development of the Data & AI strategy
- Built and showcased AI prototypes (Datahub, GenAI…)
- Created & led a community around tech watch and innovation
- Drove IS transformation and intelligent algorithm integration

AIML & ENTREPRISE ARCHI. CGI, France | 01 2023 – 09 2024
DATA ARCHITECT ACTIVUS Group, France | 07 2021 – 09 2022
DATA TECHNICAL LEAD COPERBEE, France | 12 2019 - 06 2021
AI ARCHITECT INSIGHT, New Caledonia | 05 2019 - 08 2019
PHD STUDENT IN AI ISEA, NC | (first year) 11 2017 - 03 2019
(and more before)
